Note: The prices for non-Hambleton Residents i.e. those who have reserved graves or those who have not lived in Hambleton for the 5 years preceding death, have been increased to reflect the contribution made by residents through their precept payments.

Definition of a Hambleton Resident:

1. A person living in Hambleton at the time of death qualifies as a resident but to qualify for reduced charges must have contributed to the precept over the preceding 5 years. Exception being if the person had left their home to be cared for in a residential or nursing home or at a hospital.
2. A person who has lived in Hambleton for any period of their life but not currently. This person must pay the increased charges.

Note: Family connection does not apply unless a family member is being buried in a previously purchased family grave. Charges will be at the increased rate.
